While there are times I need to cross reference with the newer edition to make sure I'm covering all my assigned readings, the information is all there just sometimes in a slightly different order in the chapters. As an NP student, I don't care for books designed for nurse practitioners - they only tell you a few bullet points and rarely go into depth. Definitely wont read the entire book Thetwobookstogetherareadynamiccombination.The almost encyclopedic nature and clear organization also make it my go-to when I have to go back and review something in particular. Definitely wont read the entire book
