The innovation journey has three stops, consisting of one week courses, in different European cities: Smart Cities Week Young engineers present their innovative proposal at networking The Innovation Journey in Barcelona. The authors conclude with advice for innovation managers and entrepreneurs:

Your week in Amsterdam sees you apply the finishing touches to your final prototype. This is why iterative and lineal procedures are both used. Then each group will present their innovation proposal to a jury deliberating the results of this innovation competition phase.

In this week, students focus on innovation methodologies and apply the last few days will use effective communication tools from storytelling to elevator pitch techniques to present your work to the Innovation Competition Jury – Smart City experts drawn from academia, enterprise, startups and the public sector.
