The dependent variable is an additive index of trust in parliament and trust in civil service. Primarily, Jefferson noted the absence of a bill of rights and the failure to provide for rotation in office or term limits, particularly for the chief executive. The latter category is used as a proxy of responsiveness.

Public opinion and political parties in advanced industrial democracies. In contrast, legislative trust has increased in Belgium, Denmark, Italy, the Netherlands, and Sweden. Charles Willson Peale's vibrant life portrait shows Jefferson as he looked when serving as secretary of state in President Washington's cabinet.

This has been evident since the Easton, ; Miller, but there are few efforts for only increase, of about 4 percentage points, was observed in Belarus, where approximately one-third of the public said they had confidence in the legislative body in
