Get Branched-chain Amino Acid essential facts. World Journal of Diabetes.

In addition to cell signaling, the mTOR pathway also plays a role in beta cells. When BCAAs were administered following a training session, sufficient phosphorylation of p70 S6 kinase and S6 indicated activation of the signaling cascade. Five enzymes play a major role in the parallel synthesis pathways for isoleucine, valine, and leucine: Physiologically, BCAAs take on roles in the immune system and in brain function.
