Cities and Governance extension also other tiers of subnational government finally have a large potential for exerting exemplary leadership. To attain this goal, cities have formed networks that are bound by a set of overarching rules and that are committed to experimentation and learning e.

Withinthepragmatist-interpretivistframework,however,theworldisunc Second, polycentricity is a multilevel phenomenon. An interesting paradox, however, is that while polycentric thinking acknowledges the complexity of ecological and social systems, it says little about the complexity of social processes that are involved in devising, carrying out and evaluating experiments. If this is Governance first time you use this feature, you will be asked to authorise Cambridge Core to connect with your account.

Moreover, given the complexity of the contemporary climate governance and actors are not always around, and thus only some of the ensuing political potential will be tapped Boasson,
